

Road safety assembly

Sergeant Ditchman came in to do an assembly about road safety. We found his assembly very informative. We learnt why it is so important to wear helmets whilst riding our bikes and to make sure we always **STOP**, **LOOK** and **LISTEN** and to **LOOK** again whilst crossing the road.

Sergeant Ditchman demonstrated his many roles in the police force. One of them was breathalysing people he suspected may have had alcohol before driving. Mrs Wells and Rosie were breathalysed to show us how the machine works.

Mrs Woodruffe, Bella and Ted also got to try on some special goggles to show us how much alcohol can affect your vision. They couldn't walk very straight wearing these!

Sergeant Ditchman kindly showed us his new Tesla. Everyone was very impressed with the cars ability to open its windows and boot all by itself!
